BOND'S BOSTON CRACKERS!

We wish to call the attention of Families to the celebrated Crackers manufactured by us, of which we have constantly on hand a general assortment, viz:

No 1 Boston Oyster	Crackers
No 2 Boston Oyster	Crackers
Graham	Biscuit
Wine	Biscuit
Pic Nic	Crackers
Butter	Bread
Fire Side	Biscuit
President	Biscuit
Soda	Biscuit
Water	Crackers

The Distinguishing Characteristics of Bond's bread is the use of Milk instead of Water, and after a trial of upwards of forty years, we confidently refer to the best judges in the land, whether we have not succeeded in the manufacture of a pure and healthy article of bread.

This can only be accomplished by an acquaintance with the best methods of mixing, which leads to perfection, and there is never perfection. But we claim that there is never better bread than ours, and that the public cannot be too particular in the kind of Crackers they give their children. Crackers of the best quality for sale at wholesale and retail by the manufacturer

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A NICHOLAS President Office 70 Wall st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Autiatic Counterfeits, Erasures, Transfers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLENN, a celebrated chemist and Lecturer in the British army it is hardly necessary to say that the Paper is recommended by Mr Ibbert Assayer of the U S Mint Mr Lyman of the New York Clearing House and Neale Brothers, extensive and skillful photographers 253 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—3 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$2 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Deeds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent as it prevents moths 40 cts a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent and much superior to any other as the moistness of the climate does not destroy it—the properties inserted in the pulp being a preventive. In all the Southern States Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper while the inks and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J, of about 800 Horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS President of the Company No 70 Wall street, New York

Republican County Convention.

Agreeably to the call, the Republicans of the County of Penobscot assembled in the City Hall, Bangor, on Thursday, August 27th, at 10 o clock, A M

The Convention was called to order by Wm P Wingate, Esq Chairman of the County Committee, upon whose motion Hon Samuel Butman of Dixmont, was chosen temporary Chairman

Upon taking the chair Mr Butman made a few appropriate remarks, urging upon the Convention the importance of a united and harmonious action and expressing the belief that their proceedings would reflect credit upon the County and the party

The following gentlemen were then chosen temporary Secretaries

Wm S Walker Lincoln
F A Simpson Dixmont
E R Mayo, Hampden

On motion of Abel W McMahon of Eddington the Chair appointed a Committee on Credentials, consisting of seven, as follows

A W McMahon Eddington
Linneas Morse, Dixmont
Joseph F Hall, Bangor
Newell Blake, Oldtown
Joseph Hammond Lincoln
Amos Pickard, Hampden
Ephraim Goodale, Jr, Orrington

At this juncture the City Hall was found entirely incapable of holding the large number of Delegates present and the Convention adjourned to Norombega Hall, the body of which was soon filled

Hon Israel Washburn, Jr was called upon and made a few eloquent and appropriate remarks counseling the Convention to lay aside all personal and private motives and to select as candidates, good and true men, who would reflect credit upon the party, and he had no doubt they would do so He then gave a brief history of the outrages in Kansas, showing that the administration and the democratic party were determined to extend slavery over that territory His remarks were exceedingly happy and elicited much applause

The Committee on Credentials then reported that the whole number of Delegates to the Convention was four hundred and sixty eight. The following is the list

A W Chabin,	Newport,
John W Rice,	Hampden,

A C. Wilson,	Brewer,
Benjamin Ball,	Corinth.

George W Wilcox, Chairman of the Committee on Resolutions, reported the following, which were unanimously passed

Resolved, That now as ever the Republican party recognizes the truth of the great principle enunciated in the Declaration of Independence, that all men are born free and equal, and that all men alike have given them by their Creator the right to life, liberty, and the pursuit of happiness

Resolved, That the Republican party most heartily believes in the truth of the political axiom that the majority shall and ought to rule in accordance with the principles of the Declaration of Independence, and the Constitution of the United States, but that no majority of any political party has a right to change fundamental institutions, or change a Democratic into an aristocratic government That no man or body of men, either singly or in political combinations, can find any authority, either in the constitution of the country or its institutions, to make one man a citizen and another a slave

Resolved, That the history of the past and present national administrations—the open and avowed principles of the Democratic party, and the signs of the times, all show that a crisis is approaching in the affairs of this nation, when the great battle is to be fought between the friends of freedom and the rights of man, on the one hand, and the champions of slavery on the other We see this in the administration of Franklin Pierce, and still more convincingly in that of James Buchanan, in the detestable doctrine of squatter sovereignty, as practically applied by the Democratic party to Kansas—in the decision of the Supreme Court in the Dred Scott case, which deprives the descendants of the negro slave, to the remotest generation, of all rights superior to those of the brutes that perish, and in the general subserviency of the party in power, to the behests of an oligarchy of slave holders—a class of men having less sympathy with the rights of the people than the monarchs and aristocracies of the old world, which our fathers abhorred

Resolved, That the Republican party looks with alarm at the late attempt by the Supreme Court of the United States, in what is commonly called the Dred Scott decision, to arrogate to itself the law making power That for partisan purposes the purity of the judicial ermine has been soiled in that case, there by bringing the highest tribunal in the country into contempt at home and disgrace abroad The Republicans will support and defend the opinion of the Supreme Court of Maine, and will never suffer the constitutional rights of any of our citizens to be invaded at home

Resolved, That the so called democratic party by its perpetual concessions to the ever recurring aggressions of the slave power, and its abandonment of the rights of the North and its own early principles, has so identified itself with the extreme slave oligarchy that it has forfeited the confidence of all who adhere to the Republican principles of Washington and Jefferson

Resolved, That in the Hon Lot M Morrill the candidate of the Republicans of Maine, for Governor, we have a man of tried integrity and firmness of purpose, and that we have undoubted confidence in his principles and ability. We therefore as the Republicans of the County of Penobscot, most cordially approve the action of the Convention which nominated him, and we pledge to the Republicans of the State our most earnest efforts to elect him triumphantly

Resolved, That we have entire confidence in the political integrity of the several candidates which have been nominated by this convention to day, and that we will use all honorable means to secure their election

Resolved, That in view of the vast emigration from this county and the State, the best interests of Maine require the adoption, by the State, of an enlarged and liberal policy, having in view the development of the agricultural and manufacturing capabilities of the unoccupied setting lands belonging to the State

Resolved, That we urge upon the people and the Legislature the importance of causing to be made an accurate and scientific exploration of these lands, the opening of the same to settlers by providing for them the best means of communication with a market, and the taking measures to make the agricultural and manufacturing superiority of Northern Maine known among the emigrating and business people of the world.

On motion of Amos Pickard of Hampden, it was

Voted, That the proceedings of this Convention be published in all the Republican papers in the County.

The following Resolution was unanimously passed

Resolved, That the thanks of this Convention be presented to Hon Samuel Butman

Adjourned

White Lies. A Novel. By Charles Reade, author of "Christie Johnson," &c Boston Ticknor & Fields. 1857

This is the first part of a very interesting story, though we have our doubts about its morals We have the same prejudice against lies that the Southern people have against colored people "It matters but little what the intensity of the lies may be—they are alike injurious, whether quite black, or the color fades almost into white—so long as the tinge remains they should be avoided"

LOCAL AND MAINE NEWS.

A Curiosity in Brewer. We were some days since invited to visit a sand bank in the town of Brewer, just above the Penobscot bridge, on the main road leading to Bradley, between it and Penobscot river, to see the remains of a post and rail fence, which was completely buried in the earth at least eight inches below the surface. The ground was opened to enlarge a brick-yard, and this fence was found standing erect, as it was built many years ago, but by whom and when built we have not learned. The sand bank is on a bed of clay, and appears too heavy to drift, but that must have been the case, as the fence was a regularly-built one of cedar posts and rails. [News.

Barley Flour from Aroostook —Barley flour makes very good bread, and we do not know why it is not more generally used than is the case We have received a very handsome specimen of flour, manufactured from Aroostook barley, from J B Hall, Esq, of Presque Isle, accompanied by the following letter

"One of our farmers in this vicinity, Mr James Sutter, brought some barley to mill, to day which he raised this season Mr Sutter informed us that the barley was sown on the tenth day of May, was cut August 3, and ground to day, August 10th, just three months from the day the seed was sown The average yield was 30 bushels to the acre I enclose a specimen of the flour We have an excellent flour mill in this village, owned by Sumner Whitney Esq, which has ground, within the last twelve months upwards of 16,000 bushels of grain, as we are informed by the miller, Mr Hughes This is some evidence of the thrift of our farmers and the fertility of our soil"

The Clinton Courant denounces the advertisers of the *Cannabis Indica*, or Indian hemp as a cure for consumption, on account of the seductiveness of the drug as an intoxicator—"It is a trap to draw the unwary into a habit that will enslave them to a deadly drug and quench their life, both of body and mind, in a most miserable and debasing self-indulgence"

The advice is entirely useless, as there is no danger of a person getting enough Cannabis Indica from the Ancient Physician to do harm or good, particularly if the money is forwarded in advance.

Killed by Lightning —A man named John Bennett was killed by a thunderbolt near Geneva, Illinois, on Friday last. He was driving a span of horses at the time, and they also were instantly killed.

The Convention.

The Convention which assembled yesterday at Norombega was an unusually large one, and, contrary to the predictions of our opponents, was very harmonious. The Republicans assembled from all parts of the County, and the best feeling prevailed Where there are many candidates, as was the case yesterday, of course some must be disappointed, but we do not recollect of a time when candidates exhibited a better feeling, or a greater determination to press onward in the cause which they advocated.

The Candidates are all good men and true, and were selected, not only for their political character, but for their peculiar fitness for the posts which will be assigned them

Throughout the whole Convention nothing occurred to mar the harmony of the occasion, and the delegates separated with a full determination to keep the Republican majority in the county fully up to last year's mark

With such candidates—such a large assemblage to show the interest felt and such a harmonious feeling as was exhibited, we cannot doubt that the Republicans of Penobscot will show to the Republicans of other counties that the victory achieved last year was not only a triumph of principle, but a triumph which is destined to be made permanent and sure

He was the principal of the Hampden Academy a few years since, and he has many warm personal friends in this vicinity, who will extend to him a cheerful greeting, during the few days he remains here [News.

Canton Point —We make the following extracts from a letter in the Maine Farmer There are many interesting features in Maine History that might be written out and make a book of great interest

Canton Point was the residence of the Rokomeko tribe of Indians This tribe, which in 1755 numbered some hundreds, occupied the point and the intervals above and below As before observed it was all cleared and improved by the Indians in raising corn,—how long it had been cultivated is of course unknown Between 1755 and 1758, the small pox broke out among these Indians, communicated to them by the French during the "old French war, and destroyed nearly the whole tribe The few that remained went to Canada, and when the Point was visited by Major Livermore and others, there were a few individuals who occasionally visited and lingered around the ancient home.

Pierpole and his family were among these He was found by the first explorers of the Sandy River Valley, in 1776, on the 'great intervale, near Farmington Falls He afterwards settled in Strong When the General Court of Massachusetts granted the town of Strong to the proprietors, one lot was reserved for the use of Pierpole

He built the second framed house in that town Pierpole had a son, Susep who was educated at Dartmouth College After his return from College he abandoned the habits of civilized life, assumed his Indian garb, and returned to his former mode of life Another of his children, Kate, married a drunken Canadian Indian, by the name of John Mitchell

Doctor Holland informs me, that about sixty years ago, he saw Pierpole and his wife Hannah, with Susep and Kate in the town of Dixfield, on their way to Canada, which was the last of their being in this vicinity

Mollyocket was a woman of this tribe who lingered around the Point, then lived in Bethel and finally lived in Andover At Bethel she attended Methodist meetings, and professed to become a convert She was accustomed to speak in their meetings, but she could not divest herself of the idea that she ought to make confession to the priest, and occasionally went to Canada for that purpose She was present at the birth of the first child born in the town of Andover, she and the mother being the only females at that time in the town She nursed the mother and continued to reside in that town until her death, at the advanced age of more than one hundred years The Rev Mr Strickland, pastor of the church in Andover conducted the religious services at her funeral, and she was buried in the cemetery of that town Metolic, another Indian of this tribe, settled and died on the shore of Umbagog Lake

The Indian burying ground at Canton Point has been found, and great numbers of skull bones, and other remains exhumed The skulls and teeth were in a perfect state of preservation, whilst the other remains on being exposed to the air crumbled into dust Some of the bodies were enclosed in birch bark,—some were in a horizontal and others in a perpendicular position Great numbers of Indian implements have been found, such as hatchets, gouges, chisels, &c Emblems of Catholicism have also been found, showing that the Rokomeko tribe were among the trophies of the Jesuit priests of the early part of the last century. It is a reproach to the Protestant Christianity of New England, that the aboriginal inhabitants of our land melted away before its onward march, blotting out with fire and sword the last trace of the once happy dwellers upon the spots then and now so beautiful and lovely, whilst the Catholic French endeared themselves to the hearts and affections of this noble hearted and trusting people by uniform kindness and fraternal courtesy toward those whom they sought to benefit

When the history of Indian wrongs is impartially written, we, of New England, will not be among those who will be authorized to cast stones at others, for the sin of injustice and oppression S

Canton Point, Aug 24, 1857

From Washington —*Washington* Aug 21 The Secretary of War telegraphed General Scott to-day to come to Washington immediately His visit has reference to the troops stationed in Kansas, and those intended for the expedition to Utah The programme which was made out some time ago, in reference to sending Gen Harney with a large force to Utah, will, I understand, now be changed It is extremely doubtful whether the expedition will leave before next spring, but as soon as Gen Scott arrives the whole matter will be arranged

The issue of the London Times each morning makes a pile fifty feet high Every four days it would make a column as high as the London Monument. The entire force employed in the printing department is three hundred, including reporters and proof readers.

IT is evident to all who hear *Edwards & Co's* PIANOS that Chickerings' are *not ahead* of all others It is also evidence in this case that Edwards & Co's have taken the *first* premium over all competitors, wherever they have exhibited them, including the Fair at Portland in 1854, where they took the first premium over the celebrated Chickering, for Pianos having the best tone and action

HONEY MAKING.

☞Torrey's Bee Hive.

The boxes used in this Hive for storing honey, are the best adapted in their size for the market, holding from three to six pounds each

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S Patent Office Washington under the Act of 1837)

No 76 State Street, opposite Kilby St, BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain, France and other foreign countries Caveats, Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate —The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a Patent and the usual great delay there are here saved inventors.

Testimonials

During the time I occupied the office of Commissioner of Patents R H EDDY Esq of Boston did business at the Patent Office as Solicitor for procuring Patents — There were few if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE
Late Commissioner of Patents

[From the present Commissioner]

August 17 1855 —During the time I have held the office of Commissioner of Patents R H EDDY Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor He is thoroughly acquainted with the law and the rules of practice of the Office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also an effectual cure for Scrofula Dyspepsia, Obstinate Cutaneous Eruptions Chronic Rheumatism Bilious Disorders, General Debility and all diseases depending on an impure state of the blood

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon or wherever Consumption is known it finds its way carrying health and joy into thousands of families The most eminent physicians have been forced to acknowledge that it *does* cure consumption and they now use it in their practice as a standard and sure remedy

There is no remedy equal to it in building up a system that under the influence of various diseases hardships or exposures, has run down or lost its natural tone and vigor Its great secret is in its power to reach the blood correct the vitiated fluids and arrest the deposit of tubercles in the lungs and it is as *safe* as it is *certain* in its action

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask Can your medicine restore a portion of lung that disease has entirely destroyed leaving a cavity? We answer certainly not neither is this necessary in order to effect a perfect cure If the treatment be commenced in season but little or no portion of the lung is lost It necessary only to *arrest* the disease and what it is doing the concrete substance deposited in the tissues of the lung ... stage The softened tubercle produces irritation the irritation brings on inflammation of that part of the lung the inflammation leads to ulceration and the destruction of a portion of the tissue as the result a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested Now does your remedy effect a cure? *Most assuredly it does* As soon as the disease is arrested the hurtful matter is absorbed or expectorated and nature either furnishes the cavity with a lining membrane or what is more common where it is of large size its walls fall together and heal up leaving a scar and the remaining portion of the respiratory apparatus true to a law running through the whole physical economy becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks but when it is water proof this is remedied By the application of this preservative, it remains soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence, recommend it to the public as the best article in the market
